WELCOME TO FABTECH CANADA 2018

Your continuing commitment to this industry and the strengthening of Canadian manufacturing is what makes this event relevant.

FABTECH Canada is a proud supporter of the metal forming, fabricating, welding and finishing industries and strives to provide you the best show in the industry, in Canada.

FABTECH Canada is more than a trade show. Visit the exhibits to find solutions to challenges created by today's complex economic times. Take time to speak to the many solutions providers and equip yourself with the right knowledge to succeed. Take advantage of expanded learning opportunities - through multiple workshops and breakout sessions. Attend keynotes and panel discussions where conversations are taking place on relevant and important topics.

At FABTECH Canada, you have three days to connect face-to-face with colleagues and peers, explore new technologies and learn from industry leaders. These days will go by quickly - and FABTECH Canada will not return until 2020 - so take advantage of every opportunity!

On behalf of SME, the Fabricators and Manufacturers Association, International, American Welding Society, Precision Metalforming Association and the Chemical Coaters Association International we welcome you to FABTECH Canada 2018 and sincerely hope you enjoy the show.

Thank you,

ABOUT THE SHOW

FABTECH Canada provides a unique platform for hundreds of suppliers and thousands of customers dedicated to advancing the metal forming, fabricating, welding and finishing industries to come together under one roof and learn about new products and solutions, attend education sessions and network with industry peers.

On-site Registration

On-site registration is located in the Sutherland Room. Anyone who will be attending the exposition MUST register to receive a badge. Admission to the exposition is free for SME, FMA, AWS, PMA and CCAI members and \$50 for non-members. No one under the age of 16 will be admitted and proof of age may be required.

Registration Hours

Monday, June 11	10:00 AM – 5:00 PM
Tuesday, June 12	7:30 AM – 4:00 PM
Wednesday, June 13	7:30 AM – 5:00 PM
Thursday, June 14	8:00 AM – 2:00 PM

Show Location

Toronto Congress Centre
South Building
650 Dixon Road
Toronto, ON M9W 1J1

Show Hours

Tuesday, June 12	10:00 AM – 5:00 PM
Wednesday, June 13	10:00 AM – 6:00 PM
Thursday, June 14	9:00 AM – 3:00 PM

About the Co-Sponsoring Associations

FABTECH Canada is co-sponsored by five leading industry associations; SME, the Fabricators and Manufacturers Association, International (FMA), the American Welding Society (AWS), the Precision Metalforming Associations (PMA), and the Chemical Coaters Association International (CCAI).

Membership information can be obtained in the booth of the co-sponsoring association or by contacting the co-sponsoring association directly.

EVENT SERVICES

ATMs

There is an ATM located in the lobby of the South Building. There is also one located in the variety store beside Harvey's restaurant in the plaza out front of the South Building.

Badge Corrections

Anyone who will need changes to an exposition or conference badge can go to registration located in the Sutherland Room.

Badge Pick Up

Pre-registered attendees can pick up their show badge at an ALREADY REGISTERED counter in the Registration Area located in the Sutherland Room.

Baggage Check/Coat Check

Located in the East Wing Lobby.

First Aid

Located in the West Side Main Lobby.

Conference Headquarters/Speaker Lounge

The Conference Headquarters/Speaker Lounge is located in room Safdie.

Hours of operation:

Tuesday, June 12	7:30 AM - 5:00 PM
Wednesday, June 13	7:30 AM - 5:00 PM
Thursday, June 14	7:30 AM - 2:00 PM

Media Centre

The Media Centre is located in room Pinsent 1.

Hours of operation:

Tuesday, June 12	10:00 AM - 5:00 PM
Wednesday, June 13	10:00 AM - 6:00 PM
Thursday, June 14	9:00 AM - 3:00 PM

Show Management Office

The Show Management Office is located in room Pinsent 1.

Hours of operation:

Tuesday, June 12	8:00 AM - 6:00 PM
Wednesday, June 13	8:00 AM - 5:00 PM
Thursday, June 14	8:00 AM - 3:00 PM

Parking

Parking is currently free of charge. TCC reserves the right to change this policy, without notice, and charge for parking.

GO Transit

GO provides bus service to the Toronto Congress Centre via the Brampton bus service. Please call **1 888 GET ON GO** for information or visit **gotransit.com** for schedules.

NETWORKING & SPECIAL EVENTS

TUESDAY, JUNE 12

OPENING KEYNOTE

Time: 9:00 AM - 10:00 AM

Manufacture and Trade: Canada Can Do Both?

Speaker: Flavio Volpe, President, Automotive Parts Manufacturers' Association

A medium-sized but advanced nation must pursue new markets to feed the growth of its most advanced sectors. However, those newly industrialized developing markets grow by undercutting Canada's 125 year value proposition in manufacturing. Can we secure new foreign customers faster than we lose domestic ones to foreign entrants? We must ask ourselves what we want from new partners beyond "Expanded Markets" before we risk too much.

FEATURED EXPERT PANEL PRESENTATION

Time: 12:30 PM - 1:30 PM

Automation & Beyond - A Closer Look at the Collaboration of Robotics and Additive Manufacturing Technologies for the Factory of the Future

Intelligent industrial solutions require interdisciplinary competencies. Often times, multiple digital and physical technologies such as additive manufacturing, robotics and automation are integrated to provide disruptive solutions to real-time production needs on the factory floor. With the advent of knowledge-driven virtual models of products and processes, it is now achievable to implement a digital twin of the manufacturing process to further optimize production, increase traceability and visualize outcomes. Come and learn from this expert panel to see how innovative software tools, cutting-edge digital designs, additive manufacturing and robotics all work together towards making the factory of the future a reality.

Moderator:

Mihaela Vlasea,
University of
Waterloo

Panelists:

Carl Dekker,
Met-L-Flo

Peter Fitzgerald,
FANUC Canada

Tharwat Fouad,
Anubis 3D

Fransceso Iorio,
Autodesk

OPENING RECEPTION

Time: 4:00 PM - 5:00 PM

Celebrate the close of opening day and mix and mingle with other attendees and exhibitors at the Opening Reception. Held on the exhibit hall floor, the Opening Reception is a great way to network with peers in a relaxed, entertaining environment while perusing the technology in exhibitor booths. **Enjoy a drink on us with your complimentary beverage ticket.**

Admission is included with registration.

WEDNESDAY, JUNE 13

KEYNOTE PRESENTATION

Time: 9:00 AM - 10:00 AM

2018 Outlook: Disruptive Trends in the Era of Acceleration

Speaker: Jim Carroll, Futurist, Trends and Innovation Expert

Are you ready for the new world of manufacturing? Collapsing product lifecycle. Mass customization. Digitization, robotics and the cloud. Design based on crowd thinking. Build-to-demand, as opposed to build-to-inventory, business models. The role of the Internet of Things (IoT) in product innovation as well as manufacturing process innovation. Spatial innovation with advanced manufacturing robotics. New materials and substances that allow for change in product development. Rapid prototyping, sketch to scale, and agility-based business models. The reality of manufacturing today is that there is a big opportunity that comes from aligning to fast paced trends. What a time for innovation, opportunity and for insight that really puts all of these trends into perspective.

WEDNESDAY, JUNE 13 continued

FEATURED EXPERT PANEL PRESENTATION

Time: 12:30 PM - 1:30 PM

Fireside Chat: What's Keeping You Up at Night?

Today's economic and political climate is ripe with change. What does it mean for you? What about it is keeping you up at night?

Join APMA President, Flavio Volpe, along with Scotiabank's Deputy Chief Economist Brett House, as they discuss the most pressing economic and policy issues facing today's manufacturers and their teams.

Hear about the latest implications for NAFTA and where things stand, hear about the Trans-Pacific Partnership (TPP) and its potential impacts to the Canadian Automotive Industry, along with other hot button topics including rising labour costs, home affordability and much more!

Bring your questions and be prepared to be entertained as these two vocal leaders in Canadian business share their insights and address the things that are keeping you up night. Admission to this session is included with your event registration.

JOB SHOP APPRECIATION RECEPTION

Time: 5:00 PM - 6:00 PM

We know your time is valuable and to show our appreciation we're inviting you to join us at the Job Shop Appreciation Reception on Wednesday, June 13th from 5:00-6:00 PM. This Reception will provide invaluable networking opportunities. Have fun and unwind with us and enjoy snacks and drinks while connecting with old friends and mingling with new peers.

Admission is included with registration.

2018 NEW PRODUCTS

Abicor Binzel

Booth 1149

ABIROB Cyclone

Full, endless, 360° rotation improves welding cell productivity and reduces downtime.

Electronic Welding Regulator (EWR2 & EWR2 Net)

The EWR2 or EWR2 Net will reduce wasted gas while improving weld quality and shielding gas coverage.

AGT Robotics

Booth 762

BeamMaster WELD

A Robotic Welding Line specially engineered to answer all the welding needs of structural steel fabricators and a wide range of other industries.

AGT Robotics

Booth 762

RackMaster Beam Connectors

Dedicated robotic production cell for welding the entire size range of pallet racking load beams to their end-clips.

Air Liquide

Booth 1381

BLUESHIELD Abrasives

Now, BLUESHIELD has extended its welding technology expertise to offer a full line of powerful abrasive solutions to respond to your cutting, grinding and blending needs.

EXELTOP™

With EXELTOP™ focus on your own performance.

Airgomig

Booth 1274

Airgomig MIG Fume Extraction Gun

With an equivalent vacuum source, the Airgomig MIG gun offers higher air flow creating improved fume extraction efficiency. Ergonomic and performant, it ensures high quality welding.

Amada Canada Ltd

Booth 604

EG 4010

Amada's EG Series of compact press brakes provide the ideal solution for producing small sheet metal components that demand a high degree of precision. A key feature of the EG Series is its high-speed Dual Servo Power.

Amada Canada Ltd

Booth 604

ENSIS with CL Automation

3KW ENSIS fiber laser technology utilizes a highly innovative resonator to automatically and precisely adjust the diameter of the laser beam. This unique feature enables continuous processing of thin-to-thick materials.

HG 1003 ATC

The HG servo/hydraulic press brake and Automatic Tool Changer (ATC) provide the optimal bending solution for high-mix, low-volume production.

HM 1003

The HM 1003 features a hydraulic proportional valve to ensure that parts are produced efficiently and accurately. This 110-ton press brake is engineered to provide maximum productivity while requiring minimal setup.

2018 NEW PRODUCTS

Ameri-Can Machinery Ltd

Booth 230

UCM 800

The UCM 800 provides a large cutting capacity with a 800 mm (31.5") carbide-tipped blade.

Beveler USA Inc

Booth 1463

B10 Electra

Hand held operated beveling machine.

UZ 18 Hardworker

Double Sided High Speed Beveler UZ 18 HardWorker, variable angle adjustment (maximum bevel width 18 mm/0,70" Automatic feed).

Bystronic Inc

Booth 905

ByStar Fiber 10kW Fiber Laser Cutting Machine

The ByStar Fiber 10kW offers high cutting dynamics, thin to thick cutting capabilities, seamless automation solutions, and intelligent sensor technology.

Xpert 80 Mobile Press Brake

With a bending length of 60 inches and press capacity of 88 U.S. Tons, the high-speed, Xpert 80 mobile press brake opens up a wide spectrum of applications for bending complex, small and medium size parts.

CAD MicroSolutions Inc/Markforged

Booth 1184

Metal X

An end-to-end manufacturing solution with everything you need to go from design to fully functional metal parts in under 24 hours.

Chambrean Industrial Slides Inc

Booth 380

Heavy Duty Drawer Slides

Heavy duty telescopic slides available for loads up to 3000 pounds. Their closed lengths can be as long as 78 inches, with extensions reaching up to 10 foot.

Continental Stud Welding

Booth 1371

ACCU 500

Battery operated Pin Welder; Up to 1000 welds per charge; Push button control with library (memory); Lightweight at only 22 lbs.

BRUTE II

Capacitor Discharge Pin Welder; Lighter at only 18.5 lbs; Made in Canada; Faster Re-charge; Program your name in the display for security.

Cosen Saws

Booth 438

C-510MNC Mitering Automatic Feed Bandsaw

The C-510MNC comes equipped with an 1 1/4" blade and automatic material feed. The saw can cut at angles up to a 60 degree miter and has a capacity of 13" x 20" with a massive base, and a 5 HP blade drive.

DCM Tech Inc

Booth 1043

DCM IG 380 SD Rotary Surface Grinder

The IG 380 SD Rotary Surface Grinder provides a 36" diameter rotary table platform for large die applications. Remove material quickly for quick build and maintenance turnaround times.

Diversitech

Booth 1075

Airhawk Cartridge Dust Collector

Airhawk Cartridge Dust Collectors feature a modular design that eliminates airborne contaminants from your work environment.

Industrial Downdraft Tables (Wet & Dry)

A large selection of standard model wet and dry downdraft tables (12 dry tables and 4 wet tables). All products can be fully customized to meet specific application and needs.

Dongguan Wangbo Metal

Booth 474

Stamping Tool & Die; Stamping Parts Production

Design and build steel and casting dies for automotive, appliance and electronics, and stamping parts production.

Dr. Shrink Inc

Booth 571

Premium Shrink Wrap

100% virgin resin shrink wrap in a wide range of widths, lengths and mil thicknesses and colors with maximum UV inhibitors.

Propane Fired Heat Tools

A variety of propane fired heat tool options including popular models with several different safety features in mind.

DTC Products Inc

Booth 1408

SlugKeeper Slug Retention Machine

This device precisely machines a small angled groove into the sidewall of the die cavity in order to prevent slugs from pulling onto the die surface where they can damage the metal strip, the stamped part or the stamping die itself.

Engineered Lifting Systems & Equipment Inc

Booth 1145

Overhead Cranes

Also referred to as a bridge crane, an overhead crane consists of parallel runways with a traveling bridge spanning the gap. A hoist, the lifting component of a crane, travels along the bridge.

Transfer Carts

Movable platforms used for the horizontal movement of materials, assemblies, and other items.

2018 NEW PRODUCTS

Engineering Services Inc

Booth 986

C-15 Collaborative Arm

An advanced 6 axis cobot arm that is safe to use around people and equipped with state of the art sensor fusion tech for impact prevention and contact detection.

C-5 Collaborative Arm

An advanced 6 axis cobot arm that is safe to use around people and equipped with state of the art sensor fusion tech for impact prevention and contact detection.

Ensitech

Booth 771

TBE-550

The TBE-550 utilizes a specifically focused adaptation of the 700 series design, to align its performance with Ensitech's latest technological advance, the PROPEL™ Torch.

TBE-700

An electrochemical MIG & TIG weld cleaner at 90 amps @ 100% duty cycle.

Ergotronix

Booth 383

Ergo Roller

A flexible and versatile conveyor roller that allows you to move, transfer and turn material smoothly and easily in any direction.

Ergotronix

Booth 383

Ergo Tranz

An innovative compact, battery-powered lift/transporter that allows for easy and efficient material transport. Options available to lift and transport, up to 600 pounds.

ESAB Welding & Cutting Products

Booth 1162

Rebel EMP 205ic AC/DC Multi-Process Welder

The first all-process machine, complete with MIG, Flux-Cored, Stick, DC TIG, and now AC TIG capabilities, which means it TIG welds aluminum.

ESAB Welding & Cutting Products

Booth 1162

Rebel EMP 235ic Multi-Process Welder

Rebel EMP 235ic –the next series of Rebel welding machines that offer TRUE multi-process performance in a portable/mobile package. It's the most mobile welder in its class and has the power and performance to crush even the most demanding jobs

Rebel EMP 285ic Multi-Process Welder

Introducing the Rebel™ EMP 285ic 1ph system, the most powerful, industrial Rebel yet for excellent performance on MIG, Flux-Cored, TIG and Stick applications.

2018 NEW PRODUCTS

FANUC Canada Ltd.

Booth 955

CR-4iA Table-Top Size Collaborative Robot

Interactive collaborative robot capable of safely interacting with a person while handling all kinds of parts.

FANUC Fiber Laser

Compact, high-performing and highly reliable fiber laser's; applicable for cutting of metallic and non-metallic materials, welding and additive manufacturing.

Seven Axis R1000iA Robot

The seven-axis R-1000iA/120F-7B's design is based on the popular R-1000iA robot series. It has a payload of 120kg and a maximum reach of 2,230mm.

Fein Canadian Power Tool Co Ltd

Booth 1467

Sluggler by FEIN AJMU 137 Cordless Core Drill

Equipped with forward and reverse rotation, variable speed, MT2 tool mount and an extra-large stroke range; the compact AJMU 137 provides maximum functionality.

Sluggler by FEIN JMC USA90 Low Profile Mag Drill

The Sluggler JMC USA90 is an ultra-low profile mag drill for hole finishing in tight spots where others can't go.

Fischer Technology Inc

Booth 667

FISCHERSCOPE® X-RAY XAN® 500

The XAN®500 X-ray fluorescence instrument can be used handheld, an enclosed desktop unit or integrated directly into production lines. It provides readings of classic coating thickness measurement functions and also fundamental parameter analysis.

XAN®500 X-Ray Fluorescence Instrument

Lightweight and mobile XRF instrument optimized for coating thickness measurement and alloy analysis. Ideal for quality and process control of electroplated, multilayer and alloy coatings, even on large irregularly shaped coated parts.

Gemtex Abrasives

Booth 1457

Flap Tech Flap Discs

Full line of ceramic and zirconia flap discs with fiberglass and trimmable plastic backings. Patented EZ Spin 5/8"-11 hub has a low profile and is light weight.

Gullco International Ltd

Booth 1271

KAT® 300 Automated Welding and Cutting Carriage

The Gullco 300 Series KAT is small and light yet robust with many features which include: tool-less setup adjustment, operation and "Click-Click" self-aligning wheels for simple and quick installation.

Hänel Storage Systems

Booth 482

Hänel Lean-Lift®

A first-class, high-tech system for storage organization and materials handling that saves time, storage space and costs, and enables a much more efficient workflow.

Hänel Storage Systems

Booth 482

The Hänel Rotomat®

The Hänel Rotomat® creates an enormous amount of storage volume on a small footprint. It works on the Ferris wheel principle, i.e. the goods come to the operator, not the operator to the goods.

HTM Sensors

Booth 471

ActionPLAN

A production software service that shows you the top 5 sources of downtime in your plant, with its exact location, root cause and cost.

Huys Industries Ltd

Booth 1280

Low Energy Welding Equipment

A process enabling users to weld virtually any material to any surface without a heat affected zone.

Hypertherm Inc

Booth 1027

Flush Cutting with Plasma

Close cutting applications such as lug and attachment removal are typically done using oxyfuel, carbon arc gouging, or traditional plasma cutting. The Powermax® flush cutting process now offers a more efficient process for these operations.

Hypertherm Inc

Booth 1027

X-Definition™ XPR300™

The X-Definition XPR300 plasma is the highest form of plasma technology, building on high definition plasma and setting new standards for cut quality on mild steel, stainless steel, and aluminum.

Kee Safety Ltd

Booth 384

Component # 20 (in various sizes)

Steel or aluminum corner component

Pipe components # 10 - various sizes

Steel component connecting two pipes.

Kubes Steel Inc

Booth 1479

HSS Induction Bending

Induction bending of HSS (Hollow Structural Section) to 24" by 24".

KUKA Robotics Canada

Booth 855

KR CYBERTECH

High-performance robots in the low payload category – the KR CYBERTECH nano series. In the 6 to 10 kilogram payload range, the KR CYBERTECH nano series stands out primarily for its compactness.

2018 NEW PRODUCTS

Lasco Umformtechnik GmbH

Booth 563

Hydraulic LASCO Press

The VP/PA/PE series with its numerous options including automation embodies features that make it the optimum press concept for any requirement and application.

LASCO Screw Press

Screw presses with direct electric drive SPR/SPP provide applications for forming, straightening, calibrating and coining parts made of steel, high-alloy materials and non-ferrous metals.

Laservision USA

Booth 1101

Modular Laser Barrier System

laservision

The module design allows for fast and easy construction of protective laser barriers and enclosures. Each unit is customized with laser-rated panels and safe viewing windows.

Lincoln Electric Co Of Canada

Booth 963

The Mini Pantheon

Lm Packaging

Booth 985

Electric Terminal Packaging

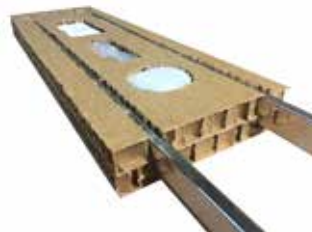

From metal moulding to final coating, the Electric Terminal Packaging is designed to highly protect the product against damages.

Lm Packaging

Booth 985

Honeycomb Filler

Honeycomb cardboard protects products and fills empty space without adding weight

LVD Strippit

Booth 1204

Automated Tool-Changer Press Brake

The ToolCell automated tool-changing press brake features an integrated tool changer and tool storage system.

Lynx Fiber Laser

Powered by a high-efficiency IPG (4 kW) fiber laser source, Lynx provides dynamic, accurate processing of a range of materials.

Mac Engineering Corp

Booth 590

Press Control Upgrade

Press Control Upgrade Components, including: 5.7" color HMI, with built in PLC; Modular Safety PLC; Servo Motor & Drive for precise back-gauge control; High-Accuracy Position transducers for ram stroke.

Shear Control Upgrade

Shear Control Upgrade Components, including: 5.7" color HMI, with built in PLC; Servo Motor & Drive for precise back-gauge control; Position transducers for blade positioning and clearance, as well as rake angle.

Masteel America Corp

Booth 901

MASTEEL

CNC Hydraulic Press Brakes, CNC Hydraulic Swing Beam Shears, Hydraulic Ironworkers.

KUKA

THE SPOT WELDING GAME CHANGER

Cut your gun calibration time
by **80%** and dramatically
improve force accuracy.

Visit KUKA in booth **#855** for a live demo.

For more info:
info.ca@kuka.com
1-888-658-KUKA

2018 NEW PRODUCTS

Modula

Booth 1423

Modula Lift

An automated storage solution that utilizes the full ceiling height, thus maximizing the storage potential. Items are stored in units up to 46' high and automatically delivered to the user to the optimum ergonomic retrieval height.

MVD

Booth 580

iBend B-series

The iBend B-series was designed for both small and large production runs and quick set ups. It's a fully automated press brake with Wila CNC crowning, Y1, Y2, and Unimec X axis.

Nilfisk Canada

Booth 770

SW4000™ Rider Sweeper

The SW4000™ Rider Sweeper provides high productivity and reliable cleaning performance to attack tough sweeping applications. Designed with a safe and efficient hydraulic high dump, the SW4000 delivers exceptional productivity.

VHO 200 Sump Pump Vacuum

Nilfisk VHO200 Sump Pump Vacuum is designed to retrieve metal shavings, lubricants, and coolants, filter out debris, and pump the purified fluids directly into the reservoir tank, all without leaving the sump.

Norton | Saint-Gobain

Booth 371

Norton Quantum3

Norton Quantum3 technology sets a whole new bar for the performance of your grinding and cutting wheels – with a distinct advantage to the user.

Oerlikon Balzers

Booth 493

BALINIT FORMERA

The coating solution for Advanced High Strength Steel forming applications.

Optrel Inc

Booth 1187

Panoramaxx Welding Helmet

The Panoramaxx features a nose cut-out in the auto-darkening filter (ADF) bringing the lens closer to the eyes, enlarging the field of view 6 times compared to a standard ADF.

Qingdao Bronco Rubber Co. Ltd

Booth 1382

Strip and Clean Disc

Strip and clean discs are good for rust removal and paint removal in the metal industry and automobile industry.

Surface Conditioning Flap Disc

Bronco surface conditioning flap discs use premium material from Italy and the product is well applied in the metal fabrication industry.

Rainbow Metal Technologies Co Ltd

Booth 845

Stamping Tool

Stamping tool for car seat parts, chassis, aluminum parts, and high strength steel parts.

Stainless steel baffle and cover

Richardson Electronics Ltd

Booth 352

REdiUnit 4.0

REdi 4.0 was developed by Richardson to monitor vital signs of the RF generator in a CO2 laser and allows for accurate record-keeping and threshold based alerts to avoid costly downtime commonly experienced through conventional reactive tele-diagnostics.

Filter

Richardson Electronics' NEW dust collection filters, made with laser grade filter media and showcasing tip-to-tip gluing for maximum strength and long life, are a cost-effective and high-quality alternative for use in TRUMPF® lasers.

RoboVent

Booth 755

Procube

The ProCube puts high-vacuum filtration power into a small, portable package that goes wherever you need it.

RoboVent

Booth 755

RoboVent Spire

Each Spire unit provides filtration for an individual large welding cell or several smaller weld cells. Features include a small footprint and built-in spark arresstance.

Rodacciai SpA

Booth 274

Roda Alloy 625 / 825

Nickel Alloy Solid Welding Wires

Rotalec Inc

Booth 1483

Banner Engineering

Banner sensors and vision sensors, LED lights and indicators, wireless and safety products used to solve challenging problems and achieve automation goals.

Sawyer from Rethink Robotics

Sawyer is a smart, collaborative robot, safe to work next to without cages, easily trained by non-engineers, flexible enough to move quickly from job to job, and affordable for companies of all sizes.

Saldatore Distribution Inc

Booth 1185

MOSA 150 Amp Engine Driven Welder

Compact, light weight 150 amp stick welder Utilizing quick connect/disconnect Dinse cable connectors allowing for ease of set up in any location as well as simplified storage and transportation.

MOSA 200 Amp Engine Driven Welder

Manufactured in Italy with the highest quality components the line of MOSA Engine Driven Welders are designed for portability and power. Honda engine power plants ensure fuel efficient operation and long worry free machine life.

SATA Canada Inc

Booth 670

SATA Air Vision 5000

A breathing protection system consisting of the air fed respirator hood SATA air vision 5000 and a belt unit which allows the easy attachment of different add-on modules.

Shanghai Huawei Welding & Cutting Machine Sales Co. Ltd

Booth 1180

HK-100S Welding Tractor with Oscillate Torch Hold

The HK-100S tractor is an automatic device capable of wider welding seams with adjustable swing speed, swing angle, off-set position of centre and stopping time of left and right.

HNC-1800W Portable CNC Plasma Cutting Machine

Modern cutting equipment with digital program control. In addition to automated cutting, it has high cutting precision, high material utilization and high production efficiency.

Shenzhen HuaYuanDa Technology Co Ltd

Booth 1445

Transfer Tool for Automotive Chassis Parts

Customer has new chassis part with innovation. We help to do the research and development. And we successfully make the die.

ShopEdge Software Inc

Booth 1144

Machine Integration Module with Shop Floor Monitor

This module eliminates data entry by pulling critical production information directly from any machine, with or without a PLC device.

ShopEdge Android Application

Allows end users to access actionable data with quicker response times resulting in decreased downtime, better customer service, and increased employee productivity all while maximizing your hardware investment.

Stein Industries Inc

Booth 1082

Induction Cabling

SteinHEAT Induction Cabling is a 350A water-cooled cable system. Patented quick connect combines electrical and water connections for quick setup and teardown.

ST-45 Induction Heater

45 kVA, dual output Induction Heater with 10-25kHz Auto-Tuning Frequency.

Strong Hand Tools

Booth 939

BuildPro® Tube & Pipe Notcher

A modular, customizable notching system for use in prepping stock for fixturing. This notcher enables the setup and control of round or square tubes and pipes.

Strong Hand Tools

Booth 939

Magnetic Grasshopper

The Magnetic Grasshopper Clamp locates and holds steel stock in the vertical position for tack welding. The spring-loaded Grasshopper clamp arm delivers positive, self-adjusting holding pressure.

Syspro Canada

Booth 1391

SYSPRO 8

SYSPRO's ERP Solution to digitize your business, streamline your supply chain, and providing greater control and visibility.

Techni Waterjet

Booth 475

Techni Waterjet Electric Servo Pump Gen 4

The pumps are designed to easily connect both electrically and plumbing for up to 10 units together for multi head applications.

Tower Metalworking Fluids

Booth 366

SAF-T-COOL with Clean Fluid Technology (CFT)

Metal removal and forming coolants with leading edge CFT and EHS technology designed to improve tool life, extend sump life, and eliminate build up.

TAKE CONTROL

Introducing the NEW ADVANCED 800 eX-F Series Laser

A New Level of Productivity.

Mitsubishi Laser is the fastest growing FIBER company in the industry. Find out why our **ZOOM Fiber technology** is racing to the top of the market. If you are looking for more production, less maintenance, and an overall reduction in operating cost look no further than **Mitsubishi**. Our latest **eX-F Advance 800** features the latest **Mitsubishi 800 control** which provides a 19 inch touch screen control and a *smartphone-like* user interface.

2018 NEW PRODUCTS

Tower Metalworking Fluids

Booth 366

TOWERPRO 5950-E

GHS Pictograms

A non-hazardous, pictogram free, chlorine and sulfur free, heavy duty, multi-purpose, metal forming lubricant designed for use on operations that include punching, multi-stage forming, drawing, and deep drawing.

U-Mark Inc

Booth 364

Metalhead® 2 Refillable Paint Marker

Classic 2 oz. squeezable plastic bottle is refillable. Paint is light-fast, weather and water resistant, and withstands many industrial chemicals. Unique spring loaded ball point tip produces thick, bright marks that will not chip or fade.

U-Mark Inc

Booth 364

Paint To Go™ Solid Paint Marker

Solid Paint Marker combines the durability of paint with the convenience of a crayon. Permanent, water and UV resistant paint, even on wet, oily and rough surfaces. Marks on concrete, metal, wood, plastics, ceramics, porcelain, tires, and more.

Unist Inc./Toledo Integrated Systems

Booth 238

SPR-2000™ Programmable Fluid Controller

The SPR-2000™ programmable fluid controller controls how much fluid flows to one or more of these Unist systems: Uni-Roller® Type S, TSL™ System, Mini-Roller™, Powered Uni-Roller® and/or Low Volume Spray Nozzles.

Uni-Roller® S2 Stock Lubricator

The Uni-Roller® S2 lubricator offers continuous stock lubrication consistently applying the correct amount of fluid to both the top and bottom of your coil.

Ursviken Inc

Booth 1143

Laser Angle Check for Press Brakes

A fully-automatic laser assisted bend angle measurement system for press brakes that can adjust the bend angle with an accuracy of better +/- .03°.

Walter Surface Technologies

Booth 463

Coolcut XX

Walter's Coolcut XX™ sanding discs are formulated with an exclusive abrasive grain blend to provide 6 times more stock removal than aluminum oxide discs.

Wuxi Qingyuan Laser Technology Co. Ltd

Booth 1412

Sheet Cutting Machine with Automatic Loading and Unloading

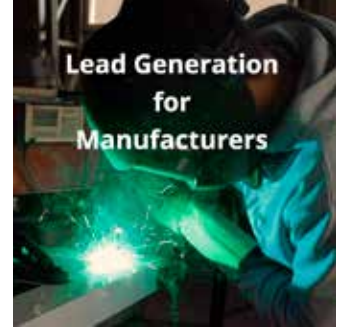

Exchange table with automatic loading and unloading device.

xTuple — Open Source ERP+CRM + Web Portal

Booth 386

Lead Generation for Manufacturers

If you are ready to grow aggressively and steal a bigger share of your market — especially for small and medium-sized manufacturing companies, you need to fill your sales pipeline with better leads.

xTupleCommerce — Sales & Service Web Portal

Integrated with its own native ERP, these are online digital resources to improve your sales, marketing and operational efficiencies.

NDZ. Series Of Welders To Best Fit Your Needs

**Secondary Constant Current Feedback
Standard Across NDZ Lines!**

NDZ-AC

- Current up to 33k Amp
- Suitable for mild steel
- Cost-effective option

NDZ-MFDC

- Current up to 42k Amp
- Stable weld quality
- Superior strength
- Suitable for mild, galvanized, and high-strength steel

NDZ-CDW

- Current up to 50k Amp
- Precise current control
- Outstanding strength
- Direct setup of current and weld time
- Suitable for high-strength, hot stamp, and galvanized steel

THE REBELLION IS GROWING.

REBEL 215

Available in EMP (MIG/Stick/TIG) and EM (MIG-only) systems, as shown above from left to right

REBEL 235

Available in EMP (MIG/Stick/TIG) and EM (MIG-only) systems, as shown above from left to right

REBEL 285 **NEW**

Available in EMP 1ph system (MIG/Stick/TIG)

Whether you choose the go-anywhere Rebel 215, the bigger, badder Rebel 235, or the all-new Rebel 285 – our most industrial Rebel yet – there are three truths behind every Rebel. They outperform their competitors, they stand up to whatever comes your way, and they make your job easier. The dare is yours for the taking. **Stop by booth 1162 at FABTECH Canada to experience them for yourself, and explore the whole Rebel family at esab.com/rebel.**

Affordable laser-cutting technology.

OPTIPLEX NEXUS Fiber laser-cutting machines deliver both cutting-edge technology and an economical investment.

- Designed to integrate Intelligent Setup and Monitoring Functions, the NEXUS delivers features normally available only on the highest technology machines. These features simplify operation and reduce operator dependency.
- The cutting-edge Preview 3 control with 15" touch screen includes integrated tech tables that simplify operation.

2.0kW, 3.0kW, 4.0kW AND

WALTER
Surface Technologies

Only the best.™

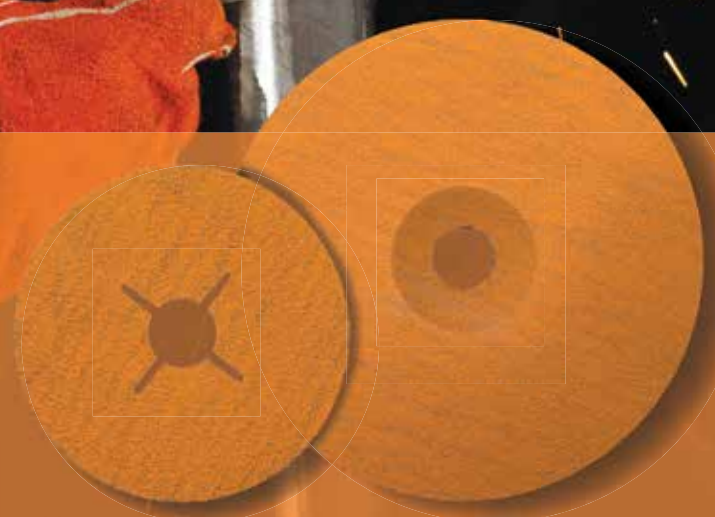

COOLCUT XX™

AGGRESSIVE. TOUGH. LONG-LASTING.

The most aggressive sanding discs for blending, sanding, cleaning and finishing. Coolcut XX™ discs are formulated with our exclusive CycloneTechnology™ abrasive grain blend to provide 6 times more stock removal than aluminum oxide sanding discs. These extremely aggressive discs last longer than other aluminum oxide or zirconia alumina sanding discs, making them ideal for any heavy production environment. Comes with Walter's 100% satisfaction guarantee.

Speed up production while using fewer discs with Coolcut XX™.
For more information or for a free product demonstration, call 1-888-592-5837.

For Productive and Economical Laser Cutting

Put Your Confidence in TRUMPF Highspeed and Highspeed Eco

For TRUMPF's latest laser cutting innovation, you have to look beyond the beam. The new patented Highspeed and Highspeed Eco nozzles produce an optimized flow of nitrogen through the kerf, significantly reducing the pressure required for cutting. As a result, cutting speeds almost double and gas consumption is reduced by up to seventy percent in a wide range of materials. You produce more parts for less money - a hallmark of TRUMPF machines. At TRUMPF, we do more than put a laser on a machine. We engineer the entire process to make you more productive and more profitable. Put your confidence in TRUMPF - Together we can build your success.

See Highspeed Eco at FABTECH Canada in Booth 305 / www.trumpf.com
